Purpose: The International Activity Proposal initiates the process for partner-requested MOU's, International Institutional Affiliation Agreements (IIAAs), and International Unit Affiliation Agreements (IUAAs).

MOUs requested by international partners may be broad or more specific, can be legally binding, and should not commit funding. These agreements do not contain the necessary legal language to protect both UCSF and the international partner. The involved UCSF faculty member should submit the MOU along with the completed International Activity Proposal as email attachments (along with any previous affiliation agreements with this partner) to <a href="mailto:organized-new-normal-new-new-normal-new-normal-new-normal-new-normal-new-normal-new-normal-

IIAAs and IUAAs

These international agreements are "umbrella agreements" and typically include a range of planned academic activities within the collaboration. These proposed agreements should be submitted using the completed International Activity Proposal as email attachments (along with any previous affiliation agreements with this partner) to ORBusinessContracts@ucsf.edu

As each specific collaborative activity is planned underneath this overall agreement, a new specific sub-agreement is required, but typically these are simpler agreements and provide the UCSF-required language. The agreements are negotiated to include international partner language to ensure an effective collaboration. OSR Business Contracts Unit (OSR BC) will use the umbrella proposal to draft, negotiate, and send the appropriate finalized agreement to the international partner in coordination with the Faculty Champion (described below). For questions about other types of international agreements, please see the UCSF International Agreements Matrix.

- International Unit Affiliation Agreements (IUAAs) involve international affiliations with a single UCSF unit. These are not campus-wide but involve one or several smaller units, often within the same UCSF school, institute, or center.
- International Institutional Affiliation Agreements (IIAAs) are international agreements involving more than one UCSF institute, school, or center. This type of agreement is for a UCSF campus-wide collaboration, initially involving at least 2 schools or independent units.

Who completes the proposal? Faculty whose activities would benefit from and be strengthened by formal agreements with their international partner.

- For single activity or single unit affiliations (MOUs, PSAs, and IUAAs), the faculty member acts as the Faculty Champion who will work with OSR BC to finalize the relevant agreement. The Faculty Champion, who develops the proposal in conjunction with the international partner, is responsible for completing and submitting this form and facilitating responses to programmatic questions.
- For affiliations involving more than one institute, school, or center (MOUs, PSAs, IIAAs), a single faculty member shall be designated as the Faculty Champion. The Faculty Champion, who develops the proposal in conjunction with the international partner, is responsible for coordinating with the relevant units, schools, or centers to develop the activity proposal. As the faculty point of contact, the Faculty Champion is responsible for obtaining consensus from other relevant units, schools, centers, etc., on the programmatic content of the affiliation. Again, the Faculty Champion is responsible for completing and submitting this form and facilitating responses to programmatic questions. The International Research Support Operations team, coordinating with the EVCP Senior International Officer, can assist in identifying potential interested UCSF faculty members from different units and facilitating the proposal discussion.

International Activity Proposal

Complete the following form

PROJECT INFORMATION

This section provides OSR Business Contracts (OSR BC) with basic project information. Please provide as much information as possible. OSR BC will translate the information found in this document into the appropriate International Institutional Affiliation or International Unit Affiliation template.

Activity Details	
Activity Name	
Affiliation Status	□ New □ Renewal □ Modification of existing agreement □ Existing activity with no formal agreement
Proposed Activity Dates (Note: agreements cannot exceed 5 years)	Start Date: End Date:
UCSF unit responsible for administrative management of the activity (e.g., school, department, Organized Research Unit, center, etc.)	
Other UC locations or other UC units involved (if applicable)	
Name of international site partner (e.g., the university, foreign government, NGO, etc.)	
Expected university staff involvemer	nt.
UCSF: provide the estimated number of individuals involved for all categories that apply	Faculty Students Staff Residents, fellow, post-doctoral scholars Others

ACKNOWLEDGMENTS

1. Review of Travel Regulations and Risks

The Faculty Originator/Champion must review the potential risks and relevant regulations with help from the appropriate UCSF and UCOP offices regarding:

- Regulations including export/import control, technology transfer, US Government sanctions, or other country information https://compliance.ucsf.edu/export-control and https://compliance.ucsf.edu/importance-export-control-compliance
- High-risk travel designation by the US State Department
 https://travel.state.gov/content/travel/en/traveladvisories/traveladvisories.html/
- UCSF requirements for international travel https://coronavirus.ucsf.edu/travel
- Risks regarding electronic devices and information technology (IT)
 https://it.ucsf.edu/news/travel-and-work-remotely-securely-and-safely
